OBJECTIVE:

Gain hands-on experience in the professional IT field by applying what I learned and knowledge in a professional environment while learning new technologies and enhancing my problem-solving abilities. Also aims to develop my communication skills and contribute effectively to the company.

EDUCATION:

(Year Covered)

2021-Present	**STI Davao College (Tertiary)**
2019-2021	**Philippines Women's College of Davao (Senior High)**
2015-2019	**Talomo National High School (High School)**
2009-2015	**Andres Bonifacio Elementary School (Elementary)**

SKILLS:

- **Backend Developer:**
  Basic understanding of backend frameworks such as Laravel. Familiar with database management using MySQL but needs guidance in writing complex queries and optimizing performance.

- **Web Development:**
  Knowledgeable in HTML, CSS, and basic JavaScript. Can create simple static websites and modify existing templates but needs guidance in working with modern frameworks like Vue.js.

- **Graphic Design:**
  Familiar with design tools like Photoshop, Canva, and Figma. Creating simple graphics, banners, and social media posts but need some guidance on advanced editing techniques, color theory, and branding consistency. Needs improvement in creating UI/UX designs for web applications.
